

com, under the arrangements of which we have

before given the details.

The directors have called a meeting of stockholders of the Erie and North East Railroad, to be held on the 10th of May, at Erie, for the purpose of accepting or rejecting the act passed at the late session of the Pennsylvania Legislature, restoring the franchise of the company.

The business of the Clearing-House today was \$21,243,000.

The Secretary of the Treasury has issued notice to the effect that holders of U. S. Bonds may file their claims on or before June 15, next, ending; being an extension of 15 days from the time first named.

The interest on the Second Mortgage Bonds of the Ohio Central Railroad Company, which were due on the 1st of March last, and then unpaid, will be paid to-morrow by Messrs. Robert Garrett & Sons of Baltimore. This is the first payment of interest ever made out of the earnings of the road, which is now doing a very good business, having made a satisfactory arrangement with the Baltimore and Ohio Road.

The interest on the First Mortgage Bonds, due to-morrow, will not be met, but the Company have no doubt that they will be able to meet it within the sixty days allowed by the terms of the mortgage.

One other Western road will, we understand, fail to provide for its interest due to-morrow.

By a vote of eleven to nine, the Albany Common Council have ordered the payment, by the Chamberlain, of the \$9,000 interest due Messrs. Duncan, Sherman & Co., on account of the Northern Railroad Company.

On a previous occasion, the Board refused to pay the interest.

The receipts of the Erie Road in April are reported unofficially at \$665,000 which is very large.

For the last few days they have averaged \$39,000 per day. The March earnings of the New-York Central are reported to have been about \$50,000 less than for March last year.

The banking house of Winslow, Lanier & Co. has been dissolved by the retirement of Mr. Jas. Winslow. The remaining partners, R. H. Winslow and J. F. D. Lanier, will continue the business. The health of Mr. Jas. Winslow has been such for a long time as to warn him of the necessity of retiring from active business, and he has at last yielded. The banking world loses in him one of its most intelligent, enterprising and unimpaired members, but the greatest loss is to the house from which he retired.

Messrs. E. H. Miller & Co. have dissolved. Both partners, we believe, remain in the street. The Co. Mr. Travers, has taken an office for the transaction of the stock business at No. 1 Exchange place.

A. F. Smith, esp., of the Cumberland Valley Railroad, who was appointed some weeks since Superintendent of the Hudson River Railroad, enters upon the duties of his office from and after this date. Mr. Skyles, the former Superintendent, still retains his office as Vice President of the Company.

The Chicago, St. Paul and Fond du Lac Railroad Company have recently negotiated \$400,000 of their 1st Mortgage 7 per cent Bonds with capitalists in this city and at Chicago. The work on this road is now rapidly progressing, and the line from Chicago to Janesville will be opened for travel in June. The Milwaukee and Mississippi Railroad, which is now in operation from Janesville to Madison, will be opened in June to the Wisconsin River at Helena, thence a line of steamers will run down the Wisconsin River to Prairie du Chien, and up the Mississippi River to St. Paul. Thus on the 1st July, 1886, a new route will be opened for travel from Chicago via Janesville and Madison to Minnesota and Northern Iowa, much shorter than the route now traveled. The extension of the Milwaukee and Mississippi Railroad to the Mississippi River at Prairie du Chien during this season, will greatly improve the route by reducing the amount of river travel and shortening the time between Chicago and St. Paul.

We understand the Orizaba will not return to San Juan, and as the Ucle San and Cortez are at Panama waiting orders, Nicaragua appears to be out of direct steamer communication with the United States. The passengers that went out by the Orizaba and started up the San Juan River, are in a very bad situation. The Costa Rica is in possession of Virgin Bay and San Juan del Sur, and even if these passengers could reach the Pacific there is no steamer there to take them to their destination. If they return to Greytown there are still detained on the river and that many of them will fall victims to the climate and to hunger. We annex an extract of a letter, received by the Orizaba, from a very intelligent source in Nicaragua. It is proper to remark, however, that Mr. Morgan has denied all interest in the new grant.

Extract of a letter written on board the steamer Colonel Wheeler on Lake Nicaragua April 19, 1886:

"The summary report of the Accessory Transit Company's charter by the Government has well nigh ruined us all to the extent of our interests in the country. The company having withdrawn its ocean trip, the Costa Rica is in possession of the transit road, all direct and regular communication between the Atlantic and Pacific by this route has ceased, and I doubt the ability of Messrs. Charles Morgan & Co. to re-establish the transit business by virtue of the Government's action."

The proceedings of the Government against the company are disapproved by many of the principal officers of the army and generally by outsiders in this country. The principal blame, however, is attributed to Messrs. Morgan and Co. and to the fact that the latter being Walker's most intimate and influential connection."

"I think Messrs. Morgan & Co. and their colleagues and counselors, Mr. Randolph and Mr. Crittenden, of San Francisco, did not properly estimate the difficulties of putting down a very energetic and determined competitor, especially another in their stead. I do not think the owners of the new charter can make much money out of it without the help, or at any rate not against the opposition of the moneyed 'Heretics.'"

"I had no knowledge of the Government's intention to re-open the company's charter until the act was consummated. Col. Wheeler says he knew it some time before, and in December last communicated the information officially to Mr. Marcy."

"The money market has ruled very tight throughout the month, and the close is particularly stringent. The amount of freight money to be paid has essentially contributed to this result, as have the diminished payments from the country. The miners, however, have generally been doing well, and the money market has also benefited a very much, every day. We expect to see easier times two months hence."

"The San Francisco Herald says:

"The general business done today has been extremely light, principally from the absence of buyers in the market, but the fact that the steamer day has passed and a very stringent market is the cause of the unfavorable influence. The heavy receipts by the clipper are all going into store. Money has ruled exceedingly tight to-day—more so in fact than for any steamer day for a long time past. The banks have not been able to have a satisfactory day, and the money market has been forced to take a very unfavorable view. We know of 44 per cent having been paid in more than one instance, and with a good margin. The jobbers have not been very much pressed, but the country pays up very poorly, and the freight bills still due are very heavy."

N. Y. Wholesale Prices of Country Produce.

FOR THE WEEK ENDING APRIL 30.

Reported by CONYER & FAIRBANK, General Produce Dealers, Washington Market.

There is but little change in the potato market since last week, with a good demand and quick sales for good Northern Caribbees and Merces, with a falling off in the quality of the latter.
